Why Choose Clarra for Business Litigation?

Simple and Intuitive

Clarra simplifies case management with an easy-to-use interface that reduces administrative tasks. Its no-code customization and integration with over 6,000 apps help your team focus on delivering results.

Optimized for Business Litigation

Clarra is tailored for business litigation, offering centralized matter management, automated workflows, and comprehensive reporting. These features enhance productivity and help your firm maintain a competitive edge.

Efficient Docketing

Clarra's Closed-Loop Docketing system ensures that tasks and deadlines are managed effectively. Its integrated document management and custom reporting features promote compliance and transparency.

No-Code Customization

Customize your workflows and data management without coding expertise. Clarra allows you to tailor the platform to your firm's specific needs, improving security and efficiency.

Seamless System Integration

Clarra connects easily with other systems through its REST-based public API and Zapier integration. This ensures smooth workflows and automates tasks, helping your firm operate more efficiently.

Rapid Transformation

Adapt Clarra quickly to meet your firm's unique needs. Customize global settings, develop tailored features, and align the platform with your case management requirements, ensuring your firm remains agile and responsive.
