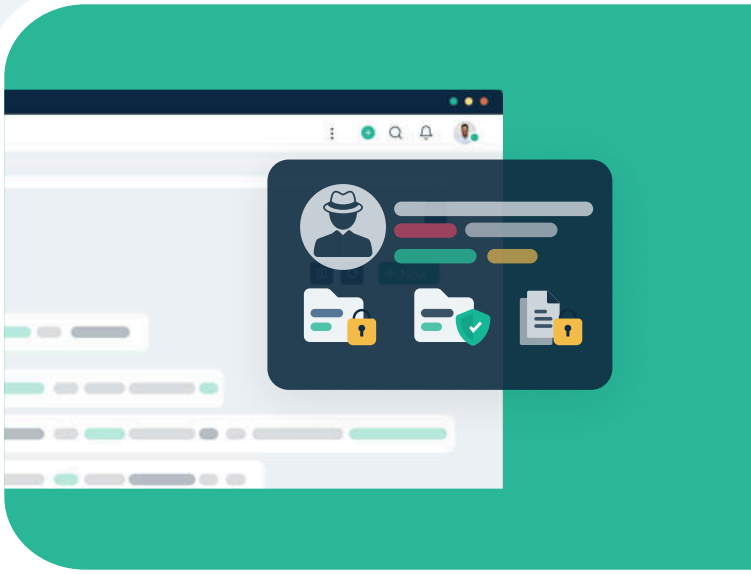
Clarra Case Management for Private Investigators

Boost efficiency and client service with streamlined case and agency management



Private investigators and their agencies face the same challenges as the law firms they support — managing cases, contracts, deadlines, and sensitive information efficiently.

Clarra's case management software helps streamline your operations by automating workflows, centralizing case data, and providing real-time updates to clients and legal teams. With built-in security and compliance features, Clarra ensures your information stays protected.

Our flexible, scalable platform empowers investigative teams to manage more cases with less effort, improve client satisfaction, and reduce operational risks.

Clarra Case Management Optimized for Private Investigators

Clarra's cloud-based platform is designed to streamline the management of cases, and the business overall. Organize contracts, track deadlines, and improve communication, all while staying focused on growth.

Improve Visibility

Clarra's real-time updates and customizable dashboards offer comprehensive visibility into all your files, cases and projects. This enhanced visibility supports data-driven decisions, helping ensure each task and case stays aligned with company objectives.

Never Miss Deadlines

Stay on top of tasks with Clarra's automated reminders and advanced calendar management. Seamlessly integrating with Outlook and Google calendars, Clarra provides alerts for milestones, tasks, and deadlines, ensuring compliance with key legal requirements as well.

Accelerate Growth

Clarra's scalable infrastructure allows investigators and their firms to manage increasing caseloads without compromising quality. With improved case handling and client communication, Clarra equips you to expand into new markets and practice areas efficiently.

Modernize Case Management

Clarra integrates seamlessly with over 6,000 applications, eliminating the need for complex coding. Manage your cases, events, and timekeeping effortlessly with customizable fields, robust API capabilities, and automation that boosts overall operational efficiency.

Why Clarra for Legal Private Investigators?

Simple and Intuitive

Clarra's user-friendly design allows professionals to focus on their clients rather than administrative tasks. Featuring no-code customization and over 6,000 app integrations via Zapier, Clarra provides streamlined access to essential case details and boosts operational efficiency with granular access controls.

Optimized for Private Investigators and Firms

Clarra offers a comprehensive platform that optimizes workflows for small and medium-sized providers. Centralized case management, automated workflows, and customizable features help investigators and their agencies enhance productivity and streamline operations.

Closed-Loop Calendaring

Clarra's closed-loop calendaring ensures that all tasks, deadlines, and events are tracked and updated automatically, reducing the risk of missed deadlines. Integrated document management and audit-ready calendaring features ensure transparency and improve overall accountability.

No-Code Customization

With Clarra, you can easily tailor your workflows without any coding. Integrate with thousands of applications and customize data fields and access controls to fit your specific needs, ensuring smooth operations and enhanced security.

Seamless Integration

Clarra's REST-based public API and Zapier integration allow you to connect with over 6,000 applications. Automate workflows without technical barriers, allowing your team to focus on providing value to clients while the system manages day-to-day tasks.

Security is Paramount

Clarra's enterprise-grade security protects sensitive case files, evidence, and client information. Private investigators can securely manage data, control access, and ensure compliance—reducing risk while maintaining client trust and confidentiality.
