Why Choose Clarra for Civil Litigation?

Simple and Intuitive

Clarra simplifies complex case management with an easy-to-use interface and client-centric dashboards. Customize the platform without coding, and seamlessly integrate with thousands of apps to enhance efficiency and focus more on client work.

Optimized for Civil Litigation

Clarra is built for civil litigation, offering a robust platform that centralizes matter management, automates workflows, and delivers comprehensive reporting. These features help your firm stay competitive and operate at peak efficiency.

Efficient Docketing

Clarra's Closed-Loop Docketing system guarantees precise management of tasks and deadlines. Integrated document management and custom reporting enhance transparency and reduce the risk of errors.

No-Code Customization

Customize your workflows and manage data without any coding knowledge. Clarra's flexibility allows you to tailor the platform to your unique needs, enhancing security and improving operational efficiency.

Seamless System Integration

Clarra's advanced integration capabilities make it easy to connect with other systems. Utilize the REST-based public API and Zapier integration to streamline workflows and automate tasks, improving overall firm performance.

Rapid Adaptation

Quickly customize Clarra to meet your firm's unique requirements. Adapt global settings, develop custom features, and ensure the platform aligns perfectly with your case management needs, keeping your firm responsive and agile.
