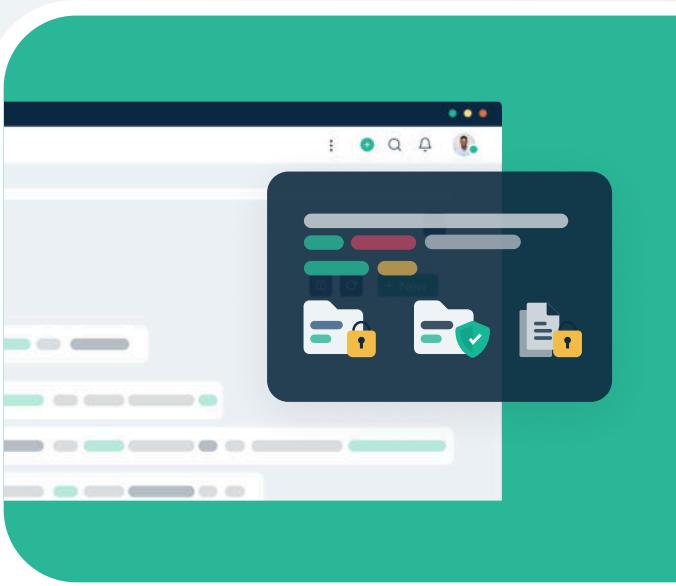
Clarra Case Management for Class Action Litigation

Expand your class action practice and improve caseload efficiency



Class action litigation firms face the dual challenge of managing massive amounts of data and ensuring efficient client communication. Clarra's platform is designed to support these needs, offering tools that help law firms handle the scale and complexity of class action cases while maintaining high service standards. As your firm grows, Clarra provides the flexibility and automation needed to manage more cases effectively.

Accelerate Growth

Clarra's system is built to expand with your firm, enhancing your ability to manage more cases and client interactions without sacrificing quality. This adaptability is essential for broadening your client reach and exploring new legal markets, ensuring your firm remains competitive.

Never Miss Deadlines

With Clarra's automated notifications and advanced docket management features, your firm stays ahead of all deadlines. The platform's seamless integration with court calendars across jurisdictions guarantees that your team never misses a critical date.

Improve Visibility

Gain complete control over your cases with Clarra's real-time updates and customizable dashboards. This increased visibility enables your team to monitor case progress, make timely decisions, and align each case with your firm's strategic goals.

Modernize Case Management

Clarra's platform integrates effortlessly with more than 6,000 applications, removing the need for extensive coding or IT expertise. Manage all aspects of your cases, from events to timekeeping, with a system designed for flexibility and ease of use.

Why Clarra for Class Action Litigation Case Management?

Simple and Intuitive

Clarra provides an intuitive interface that simplifies the complexities of class action management. The no-code customization options and extensive app integrations help your firm operate efficiently, focusing more on client service and less on administrative tasks.

Optimized for Class Action Litigation

Clarra offers a comprehensive platform tailored to the demands of class action litigation. With features like centralized matter management, automated workflows, and advanced reporting, your firm can handle the complexities of large-scale cases with greater efficiency.

Closed-Loop Docketing

Clarra's Closed-Loop Docketing ensures that every task and deadline is tracked and managed accurately. By automating updates and integrating document management, Clarra helps your firm reduce the risk of missed deadlines and maintain transparency.

No-Code Customization

Clarra empowers your firm with no-code customization, allowing you to adapt the platform to your specific needs without technical barriers. With integration capabilities across more than 6,000 apps, Clarra enhances productivity and simplifies case management.

Seamless Integration

Built on a secure Microsoft Azure platform, Clarra offers seamless integration with other systems through its REST-based public API. This integration capability streamlines your firm's workflows and supports advanced automation, enabling you to focus on your clients.

Rapid Transformation

Quickly customize Clarra to fit your firm's terminology and case management needs. The platform's flexibility allows you to develop features tailored to your specific requirements, making it easy to adapt to various legal applications like claims management and contract management—all without coding.
