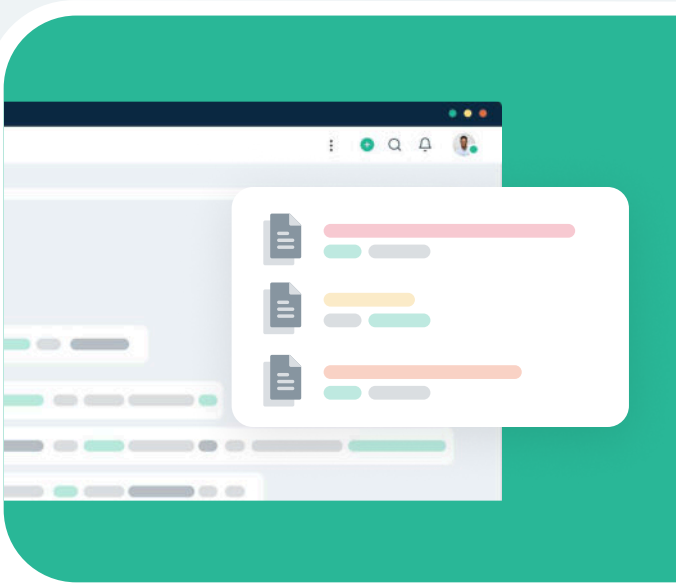
Clarra Case Management for Complex Litigation

Boost your complex litigation practice and increase efficiency



Complex litigation law firms excel by handling challenging, large-scale cases that enhance their reputation and client base. However, they must efficiently scale operations, ensure precise case management, and adopt advanced technology to manage intricate legal tasks. Investing in flexible, tailored services is essential for maintaining a competitive edge in the specialized field of complex litigation.

Clarra Case Management Optimized for Litigation

Clarra is a cloud-based solution designed specifically for litigation. It empowers law firms to accelerate growth, improve efficiency, and stay on top of deadlines.

Accelerate Growth

Clarra's scalable platform adapts to the needs of your firm, improving case handling and client communication. This flexibility is vital for expanding your client base and entering new legal markets while maintaining high-quality service.

Never Miss Deadlines

With Clarra, deadlines are always met. The system integrates with court rules and calendars across jurisdictions, providing automated reminders and advanced docket management to ensure accuracy and compliance.

Improve Visibility

Clarra offers a clear and comprehensive view of all your cases through real-time updates and customizable dashboards. This enhanced visibility allows for better decision making, ensuring every case aligns with your firm's objectives.

Modernize Case Management

Clarra modernizes case management by integrating seamlessly with over 6,000 applications, removing the need for complex coding. Manage cases, events, and timekeeping effortlessly, with customizable features that streamline your operations.

Why Choose Clarra for Complex Litigation Case Management?

Intuitive and User-Friendly

Clarra simplifies case management with a user-friendly interface and matter-centric dashboards. Spend more time on clients and less on administrative work, thanks to no-code customization and extensive app integrations.

Designed for Complex Litigation

Clarra is tailored for complex litigation, offering a platform that enhances efficiency across various legal practices. With centralized matter management, automated workflows, and comprehensive event tracking, your operations run smoothly.

Closed-Loop Docketing

Clarra's Closed-Loop Docketing system ensures that tasks and deadlines are managed effectively. Integrated document management, audit-ready docketing, and customizable reporting keep your firm's operations transparent and on track.

No-Code Customization

Clarra empowers your legal team with no-code customization, allowing you to tailor data management and integrate with thousands of apps. This flexibility supports your firm's specific needs, enhancing efficiency without technical hurdles.

Seamless Integration

Clarra connects effortlessly with your existing systems via a secure Microsoft Azure platform. The REST-based public API enables easy customization and seamless integration with third-party applications, allowing you to focus on client needs.

Rapid Adaptation

Quickly customize Clarra's global properties to fit your firm's terminology and case management requirements. The platform's flexibility enables you to develop custom features and adapt to various legal applications without needing to code.
