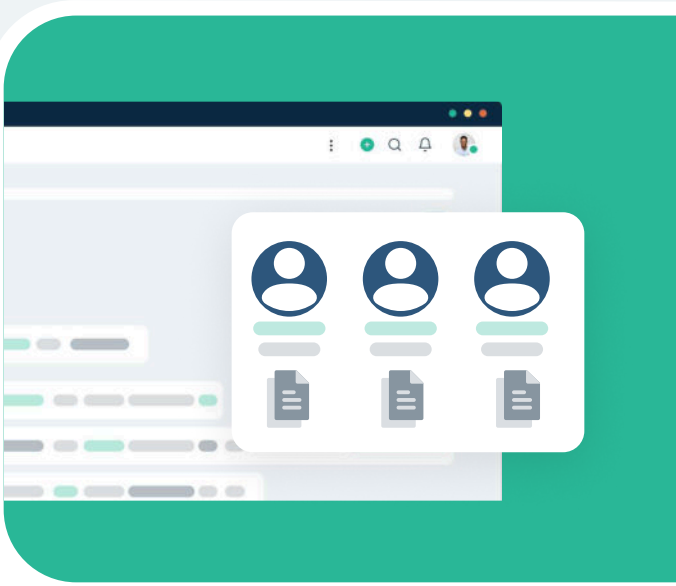
Clarra Case Management for Family Law

Grow Your Family Law Practice



Clarra Case Management for Family Law Litigation

Clarra, a cloud-based case management solution, is designed to meet the unique demands of family law. It enables your firm to scale efficiently, streamline case management, and maintain strong client communication. With Clarra, confidently expand into new practice areas like real estate and custody while managing complex case details and billing with ease.

Accelerate Growth

Clarra empowers your firm to scale smoothly, enhancing your ability to handle more cases while maintaining quality. By streamlining case management and improving client communication, Clarra helps you expand your practice and help more families.

Never Miss Deadlines

Stay on top of deadlines with Clarra's automated reminders and advanced docket management. Clarra integrates seamlessly with court rules and calendars nationwide, alerting you to important dates and ensuring precise compliance.

Improve Visibility

Gain a clear, real-time view of your cases with Clarra's customizable dashboards. These tools give you detailed insights into case status and progress, helping you make informed decisions that align with your firm's objectives.

Modernize Case Management

Clarra modernizes your case management by offering seamless integration across more than 6,000 applications. Customize your workflow without coding, making case, event, and time management more efficient and adaptable to your firm's needs.

Why Choose Clarra for Family Law?

User-Friendly Interface

Clarra simplifies case management with an intuitive design that minimizes administrative work. No-code customization and easy integration with over 6,000 apps allow you to focus more on client needs and less on system navigation.

Tailored for Family Law

Clarra is built to manage the complexities of family law cases. It centralizes case management, automates workflows, and provides robust reporting to help your firm operate efficiently and effectively.

Efficient Docketing

Clarra's Closed-Loop Docketing system ensures that no task or deadline is overlooked. Integrated document management and custom reporting tools keep you compliant with court rules, reducing the risk of missed deadlines.

Flexible Customization

Clarra enables your team to tailor data management and workflows without needing to code. Easily adjust the platform to fit your firm's unique needs, enhancing efficiency and security across all operations.

Seamless System Integration

Integrate Clarra with your existing systems using advanced tools like a REST-based API, all while maintaining a secure environment on the Microsoft Azure platform. This setup allows for advanced automation and easy third-party connectivity.

Adapt Quickly

Quickly customize Clarra to match your firm's specific case management requirements. The platform's flexibility allows you to develop new features and adjust global properties, ensuring it evolves with your practice's needs.
