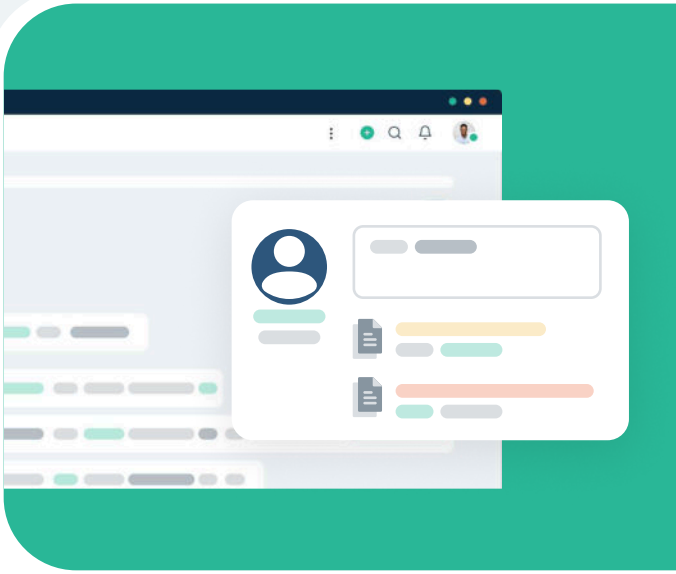
Clarra Case Management for Labor & Employment Litigation

Elevate your labor & employment practice while maximizing efficiency



Labor and employment law firms handle large caseloads while expanding into areas like wage disputes and discrimination claims. Sustainable growth requires streamlining operations, embracing advanced technology, and providing personalized services. Managing strict deadlines and complex regulations is critical, particularly for smaller firms seeking competitive, cost-effective case management solutions.

Clarra Case Management Optimized for Litigation

Clarra provides a cloud-based, litigation-focused platform designed to meet the specific needs of labor and employment law firms, enabling your firm to accelerate growth, improve efficiency, and meet critical deadlines with precision.

Accelerate Growth

Clarra's scalable system empowers your firm to manage increasing caseloads with ease. Streamlined case handling and enhanced client communication allow for expansion into new legal areas, helping you grow your client base while maintaining high service standards.

Never Miss Deadlines

Stay on top of every deadline with Clarra's automated reminders and court calendar integration. Receive timely alerts, ensuring your team meets all critical dates and remains compliant with legal requirements.

Improve Visibility

Clarra offers real-time monitoring and customizable dashboards, providing complete transparency into your caseload. Access detailed case information, track progress and generate reports that support informed decision-making and align with your firm's goals.

Modernize Case Management

Transform your practice with Clarra's adaptable platform, integrating seamlessly with over 6,000 applications. Manage scheduling, document handling, and time tracking through an intuitive interface that streamlines operations and eliminates the need for coding.

Why Choose Clarra for Labor & Employment Litigation Case Management?

Intuitive and User-Friendly

Clarra's user-friendly design allows your team to quickly adapt, minimizing training time and boosting productivity. The intuitive interface keeps your focus on client service rather than administrative tasks.

Tailored for Labor & Employment Litigation

Clarra is built to handle the complexities of labor and employment law, offering tools for case tracking, document management, and regulatory compliance. It supports your practice's specific workflows, from individual disputes to large-scale cases.

Efficient Deadline Management

Clarra's Closed-Loop Docketing system organizes and monitors all tasks and deadlines, with automatic updates and court rule synchronization to ensure compliance and prevent missed deadlines.

Flexible No-Code Customization

Customize Clarra to your firm's needs without technical expertise. Easily tailor data fields, workflows, and permissions to create a personalized case management environment.

Seamless Integration

Clarra integrates effortlessly with your existing tools, consolidating case management on a secure Microsoft Azure platform. Our REST API connects with third-party applications, enhancing automation and information sharing.

Rapid Adaptation and Transformation

Adjust swiftly to changing legal landscapes and client demands with Clarra's adaptable features. Whether expanding or optimizing processes, Clarra supports quick, effective changes without extensive development.
