Why Clarra for Qui Tam Litigation?

Secure System and Access

Clarra protects your cases under seal with Multi-Factor Authentication, military-grade encryption, and secure hosting in Microsoft Azure's compliant data centers. Roles-Based Access Controls and Matter Access Management tailor and restrict user access, ensuring proper case handling and transparency. Audit Trails log user activity, promoting accountability and streamlining compliance with stringent legal and cybersecurity standards.

Optimized for Qui Tam Litigation

Clarra is designed to handle the specific demands of whistleblower cases. Centralized matter management, automated workflows, and comprehensive reporting tools enhance your firm's productivity, allowing you to manage complex legal operations efficiently.

No-Code Customization

Clarra allows legal teams to customize workflows and data management without coding. Tailor the platform to your firm's specific needs, enhancing operational efficiency and supporting firm-specific customization, all while avoiding technical barriers.

Simple and Intuitive

Clarra's intuitive interface and matter-centric dashboards simplify case management, enabling your team to focus on client needs. With no-code customization and over 6,000 app integrations via Zapier, Clarra streamlines administrative tasks while ensuring compliance.

Closed-Loop Docketing

Clarra's Closed-Loop Docketing system ensures your team never misses a task or deadline. Integrated document management, audit-ready docketing, and custom reporting provide transparency and insight, reducing compliance risks and improving case management.

Seamless Integration

Clarra's advanced integration features, hosted on Microsoft Azure, connect effortlessly with third-party systems via a REST-based public API. Streamline workflows and automate processes, enabling your team to focus more on client needs.

Rapid Transformation

Adapt Clarra's global properties to fit your firm's specific terminology and requirements. Develop custom features to meet your unique needs, enabling quick changes and improvements. While optimized for litigation, Clarra manages various legal applications without coding.
