Case Management Reporting with Clarra

Harness data-driven insights for comprehensive case and operational management

Effective reporting is crucial for legal departments and law firms to maintain efficiency and compliance. Clarra's reporting features provide comprehensive tools that transform data into actionable insights, enhancing case and operational management.

Why Choose Clarra for Reports?

Modernize Case Management

Clarra's reporting functionalities integrate seamlessly with its advanced case management system, offering essential data insights about the firm's operations and cases and facilitating a more informed approach to legal practice management.

Enhance Visibility

Improve case oversight with Clarra's real-time dashboards and detailed milestone tracking. Gain visibility into key operational metrics to make informed decisions that align with your firm's objectives.

Ensure Deadline Management

Avoid missed deadlines with Clarra's precise deadline-tracking capabilities. Reports audit all scheduling and docketing activities across cases, ensuring meticulous compliance with legal timelines.

Streamline Reporting Processes

Clarra's reports promote operational efficiency by reducing the reliance on manual reporting and event tracking. This streamlining of processes enables better case handling and reduces administrative burdens.

Deliver Comprehensive Analytics

Generate in-depth reports with Clarra to dissect and enhance your case management strategies. These detailed analyses help you understand case dynamics and refine operational tactics for better outcomes.

Comprehensive Reporting Capabilities

Clarra provides robust access to a variety of reporting tools, enhancing flexibility and insight:

- Access dashboards for standard and managerial oversight.
- Generate and view standard reports.
- Export reports in formats such as .csv, Excel, .pdf, and Word.
- Create custom reports tailored to specific needs.
- Integrate with analytics platforms via REST API for expanded capabilities.

How to Utilize Clarra for Enhanced Reporting

Generate Detailed Reports

Quickly produce comprehensive reports using Clarra's tools to monitor all facets of case management, including timekeeping, event scheduling, and document tracking.

Customize Reporting Data

Tailor data fields and formats to meet the unique reporting requirements of your legal practice, ensuring reports are relevant and informative.

Conduct Audits and Ensure Compliance

Use Clarra's reporting features for thorough audits of resource allocation and docketing processes to maintain adherence to court rules and deadlines.

Create Accurate Financial Reports

Leverage Clarra's timekeeping integration for precise financial reporting, which supports accurate billing practices and effective revenue management.

Acquire Operational Insights

With Clarra's reporting tools, you can gain valuable operational insights. Drill down into the details of your firm's case management to identify areas for strategic improvement and growth.

Integrate and Customize Calendars

Manage your legal schedule effortlessly with Clarra's integrated calendar. Customize it to fit your workflow, ensuring seamless tracking of events, deadlines, and tasks.

Access and Audit Event Lists

Keep track of all scheduled legal events in an organized list that includes court dates and client consultations, ensuring you're always prepared and informed.

Generate Customized Reports for Strategic Analysis

Develop tailored reports to delve into your event management strategy. Analyze data related to deadlines, tasks, and overall efficiency to refine your approach and optimize your firm's performance.
