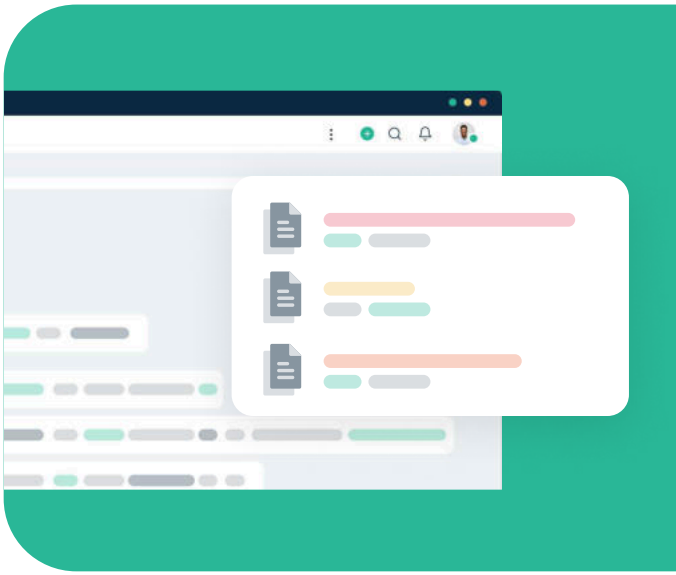
Clarra Case Management for Mass Tort

Improve visibility and outcomes in mass tort cases



Clarra Case Management Optimized for MDL Litigation

Clarra is a cloud-based solution designed specifically for litigation. We assist mass tort law firms and defense litigation practices in growing their operations, increasing efficiency, and meeting every deadline.

Accelerate Growth

Clarra's scalable case management system grows with your firm, improving case handling and client communication. This scalability is vital for expanding your client base and exploring new legal markets, ensuring your practice can manage increased caseloads without compromising quality.

Never Miss Deadlines

Clarra's automated reminders and advanced docket management keep you ahead of deadlines. Integrating seamlessly with court rules and calendars nationwide, Clarra alerts you to critical dates, ensuring accurate tracking and compliance.

Improve Visibility

Gain a clear overview of your MDL, sub-matters, and plaintiffs with Clarra's real-time updates and customizable dashboards. This visibility provides detailed insights into case status and progress, facilitating informed decision-making and aligning each case with your firm's goals.

Modernize Case Management

Clarra transforms case management through seamless integration with over 6,000 applications, removing the need for coding. Effortlessly manage cases, events, and timekeeping with customizable properties and robust API capabilities, streamlining your firm's operations.

Why Clarra for Mass Tort Case Management?

Simple and Intuitive

Intuitive interface and matter-centric dashboards reduce administrative tasks. No-code customization with over 6,000 app integrations via Zapier, granular access controls, and docketing workflows enhance practice efficiency and ensure compliance.

Optimized for Litigation

Streamline MDL management with centralized matter management, automated workflows, sub-matter visibility, no-code customization, robust reporting, closed-loop docketing, and comprehensive event tracking.

ClosedLoop Docketing

Manage tasks and deadlines effectively with integrated document management, audit-ready docketing, and custom reporting for insightful analytics.

No-Code Customization

Self-service customization without coding. Tailor data management and integrate with over 6,000 apps via Zapier. Customize data properties, fields, and access controls to fit your firm's needs.

Seamless Integration

Enhance your legal practice with advanced integration features on a secure Microsoft Azure platform. Utilize a REST-based public API for seamless third-party connectivity and easy customization.

Rapid Transformation

Customize global properties to align with your law firm's specific terminology. Adapt Clarra to various legal applications such as claims management, licensing, contract management, project management, and records management, all without coding.
