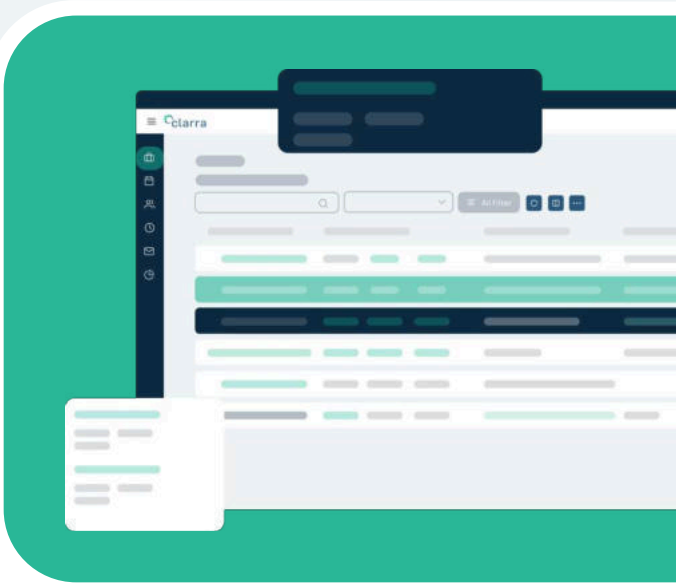
Clarra Case Management for Personal Injury

Expand your Personal Injury practice and dramatically improve caseload efficiency



Clarra Case Management Optimized for Litigation

Clarra is a cloud-based case management solution optimized for litigation. We help personal injury law firms accelerate growth, improve efficiency, and ensure no deadlines are missed.

Accelerate Growth

Clarra's case management system scales with your law firm, enhancing case handling and client communication to manage more cases without sacrificing quality. This scalability is key for expanding your client base and exploring new legal markets and practice areas.

Never Miss Deadlines

Clarra's automated reminders and advanced docket management ensure you never miss a deadline. Seamlessly integrating with court rules and calendars nationwide, it alerts you to upcoming dates, guaranteeing accurate tracking and compliance.

Improve Visibility

Gain a comprehensive view of your cases with Clarra's real-time updates and customizable dashboards. Detailed insights into case status and progress facilitate informed decision-making, ensuring each case aligns with your firm's objectives.

Modernize Case Management

Revolutionize case management with Clarra's seamless integrations across over 6,000 applications, eliminating the need for coding. Manage cases, events, and timekeeping effortlessly while enjoying the flexibility of customizable properties and fields and robust API capabilities.

Why Clarra for Personal Injury Case Management?

Simple and Intuitive

A user-friendly interface and matter-centric dashboards streamline administrative tasks. Enjoy no-code customization with over 6,000 app integrations via Zapier. Granular access controls and effective docketing workflows boost practice efficiency and ensure compliance.

Optimized for Litigation

Enhance personal injury litigation management with centralized matter control, automated workflows, sub-matter visibility, and no-code customization. Robust reporting, closed-loop docketing, and comprehensive event tracking optimize your legal operations.

Closed-Loop Docketing

Effectively manage tasks and deadlines with integrated document management. Audit-ready docketing and custom reporting offer valuable insights and reduce compliance risks.

No-Code Customization

Empower self-service customization without coding. Tailor data management and integrate seamlessly with over 6,000 apps via Zapier. Customize data properties, fields, and access controls to meet your firm's unique needs.

Seamless Integration

Leverage advanced integration features on a secure Microsoft Azure platform. Use a REST-based public API for effortless third-party connectivity and easy customization, supporting advanced automation.

Rapid Transformation

Align global properties with your firm's terminology. Quickly adapt to various legal applications like claims management, licensing, contract management, project management, and records management, all without coding.
